Community Blues Explosion

Community Blues Explosion has been generously supported by Dereham Town Council, The Geoffrey Watling Charity, Norfolk Blues Society and Dereham Blues Festival.

The aim is to build on the success of the annual Dereham Blues Festival by introducing more inclusive community activities with an appeal to a wider age, interest and accessibility range of the populace.

Blues music developed from within a community. It sustained the people of that community through the trials and hardships of an oppressed life with determination and indeed humour aimed at the lighter side of life. The legacy of that music continues to sustain communities in spirit, in soul and in togetherness.
